---

Hello Mr. Cortese:

We had a nice telephone telephone conversation about a year ago regarding the Firearms Safety Seminar that you hosted. I was unable to attend but remained interested as well as concerned about the outcome of the seminar.

One of your staff members contacted me following our conversation and indicated that a summary report would be published related to the results of the seminar. I have not heard anything more. Is it possible to get an update?

Recognizing that you are a gun owner and proposing to run for the State Senate, if you are elected for that position, I would hope that you will not support nor propose any legislation that negatively impacts law-abiding gun owners in this state. "Feel Good" laws do nothing more than support misguided political agendas. If you are pro-firearms ownership and pro-2nd Amendment then I will avidly support your campaign.

Thanks for your time,
